THE TIMES.

J. H. CLEMENT, EDITOR.

WEDNESDAY, JAN. 24, 1906

Judge Pilegar is the "watch dog" of the Constitution.

The announcement of Mr. Tucker's candidacy causes some consternation in the ranks of Gubernatorial aspirants.

Norfolk understands the art of annexing. Richmond does not, and in order to "spread herself" Norfolk has to le p the billows.

Richmond has no water to clean streets.—Evening Journal.

The usual variety of Richmond water would'nt clean a street.

When Hon. Carter Glass enters well upon the Gubernatorial race you may expect a canvass characterized by intense activity and high order of "hustle."

Marshall Field, the greatest merchant that ever produced, died. If he an immense estate and did not forget to devote much of it to charity.

If men are so wicked with religion what would they be without it? asked enjamin Franklin, and yet by his example he would have destroyed the Christian Sabbath.

What has the United States got to do with "reform in Morocco" while her mid winter roads are knee deep in mud? Lt. Germany and France fight it out and let's mend our ways, especially our highways.

Why did the Virginia House of Delegates hold a session on Gen Lee's birthday while the Senate did not? And did not Capt. R. E. Lee, Jr., son of the immortal man, preside over the body on that day? An explanation is in order.

We are glad to know that Japan is in the market as a bidder for the Philippines. Let her go and get quick. We have no money to waste on foreign ventures so long as American highways are a disgrace to American pluck and push.

Representative Brownslow is right when he says that the public road question is the overshadowing one of the hour.

No tariff, nor rebate, nor harbor deepening, nor river improving, nor public building compare to it in importance.

Congress has now been in session for quite two months and as far as the general interests of the public are concerned the body might as well have been meeting in the moon as in the cit. of Washington. Verily this the day of profound States manship. Wisdom did'nt die with the fathers.

"Lest you forget" we proceed to say again that the TIMES has the largest circulation in the counties of Appomattox and Buckingham of any other paper published in or out of Virginia, and this being so we need not add that it is the best advertising me dium so far as those counties are concerned, that is offered to the public.

We are glad to know that a movement has been inaugurated which has for its object the improvement of the Capitol Square at Richmond. Nature has done much for this his oric spot and now let art unite with nature in making it the most beautiful square in America, and be sure and remove the iron enclosure and let the improvements shine out in unobscured beauty.

Dr. W. H. Taylor, of Richmond, who was guilty of the bad taste of delivering a lecture before a class of medical students which had the tendency at least of encouraging unbelief in the Christian religion, recently said to a reporter of the Evening Journal, "Now that I have become organizer, no one, so far as I know of has assailed me." And the reason is that those who were disposed to pro secute them have been satisfied that only "he fool hath said in his heart there is no God."

A seat in the New York Stock Exchange sold the other day for $95 000, and it is said that the price would soon reach the $100,000 mark. What does this mean? What advantage has the man who occupies such seat over any other man with a seat in a private office supplied with telephone and telegraph wires? Just that perhaps that belongs to any other dealer in any other gambling saloon. The "odds" are all in their favor, and what those "odds" are the public may never know.

A man without a bank account has been sent to the United States Senate. Now let him leave without one, and the people will or should demand his return.

All the railroad systems made money last year and it is in order for them to give the people a New Years gift in the shape of "rebate" and not wait to be made to do so.

Mr. Bryan has been made a "Datto" whatever that means. He no doubt hopes that if ever he is presidential aspirant again he will not be made Ditto again.

A free and unrestricted press is a National asset of tremendous importance with which not even the President of the United States has the slightest right to tamper.—Richmond Times-Dispatch.

Another school official for Virginia. Salary $1500 and the appointee has abundant time to attend sixty days to his law business. No more pat for teachers and no additional school appliances. Verily wisdom is on deck of the educational craft.

Governor-Elect Swanson says he wants neith r parade, pomp nor ceremony when he is inaugurated.

Good again.—Let nothing divert your mind from public road improvements for the Virginia system is at it's worst about the time of your taking the oath

The legislator who offered the bill providing for the closing awa with school inspectors has a clear head." Dispense with unnecessary officials and give better pay to teachers, and to teachers and scholars better school houses.

Teaching University classes in one thing and looking after the practical working of public schools is a vast different thing

About the only thing done in the interest of popular education of late his been the expenditure of some $15,000 in the appointment of some half dozen useless officials.

Too much learning makes some people mad. There is a wide gulf between the practical and the theoretical. We have been dished out more sentiment than sense.

The Richmond Evening Journal is strictly right in urging Richmond to subscribe liberally to the State Fair fund, in opposing compulsory education and in recommending that the affairs of it's state schools, especially those of the W. & M. I. be critically and carefully investigated. Down with junketing and let's come down to business.

Speaker Cardwell may have some good reason for violating all precedent in the make up of the legislative committees but to the uninitiated it looks mor like spite than sense.

The name of Lee is an honored one and while the man who inherited it is entitled to no special honor on that account merely, is nevertheless entitled to the ordinary courtesies of official as well as social life.

New York Republicans are very much stirred over President Roosevelt's interference with New York politics, and one of them goes so far as to say that "Charles the First's head was cut off for less." Peace, brothers, peace, especially at this season of the year—"Peace on earth good will among men."

It is said that Myor McClellan will appoint "Fighting Joe" Wheeler police Commissioner of New York. "Times change and men change with them." The duties of the office must be rather "strenuous" for a "retired" gentleman. Come South, old warrior, and quit the footlights.

"Under the former conditions great reliance could safely be placed in individual effort and little resort had to be had to social control. At the present day—the dy of the industrial combination, the factory system and the great city—individual effort is a weak staff upon which to lean if we are to expect that progress which is in our minds associated with the highest degree of civilization. Individual effort must make way for social control."

And this condition is to be deplored, for when you destroy personality and merge the individual in a combine you do serious harm to the body politic. Better for a community of independent individuals than one colo sal combine in a community of dependent individuals.

At which time this cut-rate on Clothing and all Winter Dry Goods will close. Now is the chance to pick up a fine suit or overcoat at a price you'll want to tell your neighbors about.

Did you ever think what it means to us to carry over a stock of goods?

First. It means a tremendous waste of valuable space for which we pay rent. It means filling scores of great packing cases with winter suits and coats, woolen underwear, winter dress goods, and the like. It means tacking these goods to protect them from moths or dust or rain. It means easy tasks where you considered whole days full of motor considerable. It means dollars and dollars and dollars for six mos ths or more and the loss of the selling power of interest on that money. Therefore, you consider it your business to put the whole of this clothing and dry goods stock in shape for cheap right now, and have it over with. That is why you can come to this sale with a few dollars and go away with an overcoat—an entire new outfit it is saying of 25 per cent to 33 1-3 per cent.

THE TIMES.

WEDNESDAY, JAN. 24, 1906.

Our small pox patients are convalescing.

Operator Binford, who has been ill is much improved.

See the big advertisement of D. W. Myers on second page.

Mr. and Mrs. E. W. Taylor and Mr. W. B. Caldwell are in New York.

Mr. Ann Schaubach, is on a visit to his wife's parents, Mr. and Mrs. Tanner.

Circuit Court here on Monday the 5th of February. Come out and bring the old "plug" and lets have a hoop.

The Rosebuds will meet next Sunday at Memorial at 3 o'clock, and continue to meet every 4th Sunday evening.

Some such bar gains were ever offered as those at D. W. Myers sale beginning Feb. 1.

Mr. Stem Mitchel is acquiring a reputation for raising fine tobacco. He carried off the blue ribbon of the Lynchburg market yesterday.

Mr. S. L. Kelly, of Crews came up to Appomattox today to get some good butter for his mother's first-class boarding house.

If there is anything of interest go on in this town it has escaped the eye of the editor. Of course our people go to Lynchburg as they always do.

We call special attention to the advertisement of Shearer Bros. & Franklin in this issue. This firm sells at close cash prices at all times, but right now they are underselling themselves, as fully explained in their ad.

Our oldest weather observers say this is the most remarkable spell of weather ever experienced here. It puts the busy feeling on our farmers and the plow is brought out and in a few nights the great fires from the plow lds will illuminate the sky

The Pastor's Conference of this Baptist Association is now in session here at Liberty church. Many prominent ministers and laymen are present. We wish them a pleasant sojourn and no disappointments in Work in which they are engaged.

If the fast westbound train was not stopped through Appomattox yesterday the passengers of the day lay and a few intimate friends were called upon to witness the marriage of Miss Clara Gilliam to Mr. T. W. Wilkerson. Rev. W. E. Warren, the bride's pastor performed the ceremony. The groom is a progressive young farmer of Prince Edward county, but we understand he and his young bride will reside at Pamplin. The bride is the attractive daughter of Mr. Bruce Gilliam. The happy pair are now on a tour through the West.

THE above picture of the Bull fish is the trade-mark of Scott's Emulsion, and is the synonym for health and purity. It is sold in all the civilized countries of the globe.

If the cod fish became extinct, would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of it without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate folks, and all conditions of wasting and lost strength.

Mr. W. H. Camp, Petersburg, Va.

Dear Sir: Yours to hand and noted, and in reply will say I purchased two barrels of Camp's Prepared Chemicals from your agent at this point, Mr. Wingfield. I intended using it on corn, but as Commissioner of Revenue, I had lots of riding to do about that time and overlooked it. So when I came to plant tobacco I was in a hurry and did not take the time to mix it, but drilled it along side of a 3-9-3, guano, same proportion, 200 lbs. to the acre, and I have never been able to tell the difference, it is all fine tobacco. There is no experimenting station on my farm, run by the Bureau of Soils, and the Manager made considerable fun of me using Chemicals. He seemed to doubt that it contained the ingredients it claimed to, so we drew a sample and he took it to Washington and had it analyzed. It ran 1 per cent higher on ammonia than you claimed and about the same on potash. I know several parties that did use your chemicals according to your directions this year with fine results.
